## Outstanding Price/Performance

Amador offers reliability which was designed, engineered and purpose built for quality - but at a very competitive price for outstanding price / performance.

Amador includes Windows Embedded POS Ready 7 with 2GB of memory running on an Intel Celeron CPU. Amador supports a full range of peripherals like encryption-capable MSR with fingerprint, rear mount customer pole display, cash drawers and printers and more. The low-profile base is sleek and fully foldable, creating optimal viewing for ease of use. Amador's use of an Intel embedded CPU and an embedded Windows operating system, unlike similarly priced terminals using consumer grade components, assures long term support for extended rollouts and ease of servicing.
